

## SCHOOL DISTRICT #49 (CENTRAL COAST) Policy Manual

---

---

### **POLICY 420: Inclusion**

The Board of Education of School District 49 (Central Coast) believes that all children have a right to obtain an appropriate public education whether they have unique needs in the area of an intellectual, physical, sensory, emotional or behavioural nature.

Whenever appropriate, children with unique needs should be provided services within the Special Education Policy Framework for British Columbia and within the available funding. When the provision of education for particular special needs students is not feasible within the District, the Board will be responsible for providing alternatives such as entering into an agreement with other School Boards for appropriate educational services.
