Office365 and Google Classrooms at SAMS

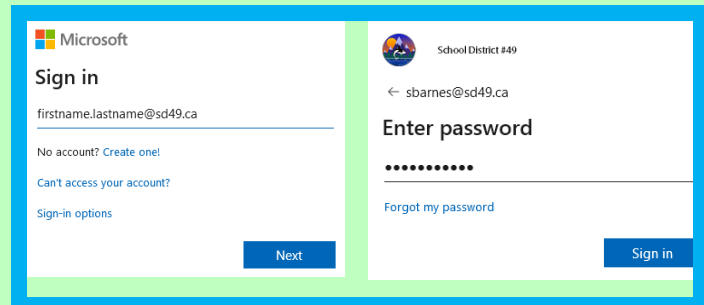

Access to both Office365 and Google Classrooms is provided for all students by SD49. Both services operate on the same login process. Students must log in to Office 365, and they will then have access to email and classrooms.

1) visit the SD49 website and click the link “Student Office 365 Login”. This will take you to the same login page you would find if you searched for “Office 365 login”

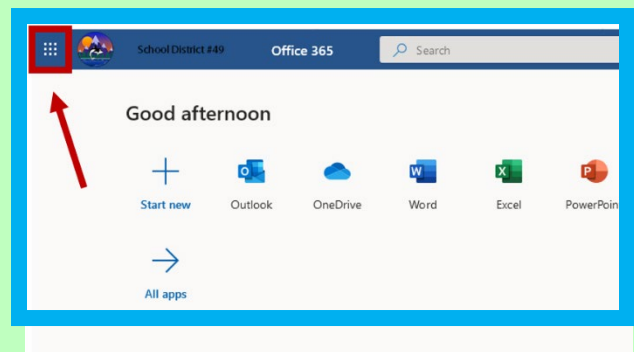

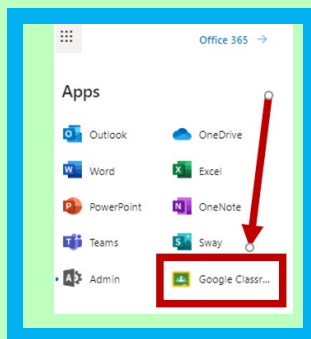

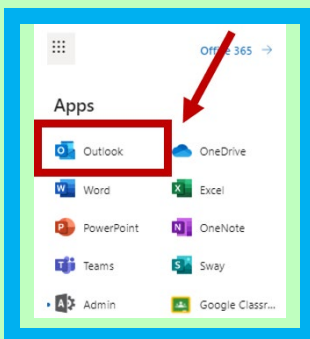

2) Students should enter their login ID, which is their first name, a period, and their last name, then “@sd49.ca”:
first.last@sd49.ca

Then, they enter their password. If they have not accessed this service yet, their default password will be “Sams12345”

3) You have now reached the Office365 landing page. From here you may either access Webmail (Outlook) or Classrooms (Google)

4) Clicking either of these links takes you to the appropriate application. You can use email to contact teachers for Classrooms support.
