TECHNOLOGY TOOLS ACCESS:

An important part of learning involves using Internet-based tools to create and to share learning--to continue building a lifelong digital portfolio. Some tools may require the school to create a personal account; using his/her school provisioned email account. Please note that your child will use Internet-based tools for both classroom activities and home-based assignments, and will continue to hold accounts after our coursework is completed. Accounts will be monitored closely by teachers and administration at the school.

Your written consent to your child's use of Internet-based tools is required by British Columbia's Freedom of Information and Protection of Privacy Act (FIPPA).

If you choose not to provide your consent to your child's use of Internet-based tools, your child will not be penalized in any way and alternate activities will be provided, as appropriate.

It is important to be aware that the majority of the Internet-based tools noted below are online services hosted outside of British Columbia and possibly Canada. While stored outside the country, information in your child's accounts may be subject to the laws of foreign jurisdictions, including, in the United States, the USA Patriot Act.

As a general safe practice, when interacting with any online service, students will be taught to and should care and avoid posting personal information or personal location that could be used to identify themselves or other persons.

To explain and document their learning, students may be using sites like Google Sites, Prezi, Showme, Kidblog, Edublog, Voicethread, Wordpress, Flickr, or similarly related sites/apps.

To communicate with other learners, students may be using Twitter(teacher/class account –not personal accounts), Wordpress, Kidblogs, Google Sites, Skype, or wikispaces.

To store and manage assignments and other information, students may be using our school server, Dropbox, YouTube, Evernote, or Google Drive.
